

## Early Career Investigator Award Saturday 07th

**February 2026**

Presenting Author	Title	Astract Id
Dr. Sowrabha rajanna	Spatial Epidemiology And Descriptive Patterns Of Paraquat Poisoning In Southern Karnataka: An Ambispective Geospatial Analysis Of 103 Cases	

## ISNSC Early Stage Investigator award session Friday 06th February 2026 || 04:00 to 05:00 PM

Presenting author	Title	Abstract id
Dr. Vathul b subramanian	Comparison of hepcidin clearance in low flux hd vs high flux hd and its effect on erythropoietin resistance index in end stage renal disease .	Frp17
Dr. Monika n	Ambulatory blood pressure monitoring for optimizing hypertension management in patients on maintenance hemodialysis	

## Poster Presentation

1	Dr. R santosh patnaik	Clinical profile and outcomes of postpartum acute kidney injury	Aki	Frp108
2	Dr. Harika padamata	Microscopic truths, maternal outcomes: the untold story of pregnancy related aki- a retrospective analysis from a teritiary Care centre from south india	AKI	FRP40
3	Dr. Niranjn gangoor	Plasma cell dyscrasias with renal involvement: a case series Highlighting diverse renal presentations	Case series	Pos25
4	Dr. V.aruna	A red green conundrum - a case series on al amyloidosis	Case series	Pos30
5	Dr. Mayank chauhan	Genetic and clinical trajectories of alport syndrome: a case series	Case series	Frp107

		<b>Highlighting early progression to kidney failure</b>		
6	<b>Dr. Swetha rajkumar</b>	<b>The virus behind the drop: parvovirus b19 in kidney Transplantation</b>	<b>Case series</b>	<b>Frp101</b>
7	<b>DR. SARASWATHI YASHASWINI</b>	<b>Clinical and radiological characteristics of patients with autosomal dominant polycystic kidney disease (adpkd): a single-Center study</b>	<b>CKD</b>	<b>FRP27</b>
8	<b>Dr. Beena unnikrishnan</b>	<b>Histological spectrum and factors associated with cutaneous Manifestation among patients with end stage renal disease</b>	<b>Ckd</b>	<b>Frp31</b>
9	<b>Dr. Sunil kumar behera</b>	<b>From crisis to control - medical nephrectomy: a non-invasive Rescue for refractory hypertension in esrd</b>	<b>Dialysis</b>	<b>Pos59</b>
10	<b>Dr. Dayanand</b>	<b>Assessment of frailty in patients with chronic kidney disease stage V</b>	<b>Dialysis</b>	<b>Pos78</b>
11	<b>Dr. Naja k</b>	<b>Spectrum of infections in post renal transplant recipients: study From a tertiary care centre in kerala</b>	<b>Transplant</b>	<b>Frp70</b>
12	<b>Dr. Akash ramaswamy</b>	<b>Induction immunosuppression therapies in pediatric kidney Transplantations- an audit of the outcomes</b>	<b>Transplant</b>	<b>Frp85</b>
13	<b>Dr. Rajasekar rajendran</b>	<b>Efficacy of corticosteroids in severe infection-related Glomerulonephritis—a single tertiary centre experience.</b>	<b>Glomerular</b>	<b>Pos4</b>
14	<b>Dr. Sateeshkumar b patil</b>	<b>A study of clinical profile and renal biopsy spectrum in hiv - positive patients : an experience from tertiary care centre in south India</b>	<b>Glomerular</b>	<b>FRP56</b>
15	<b>Dr. Vetha palani Chellakkannu</b>	<b>To assess the chance association between heavy metal exposure And minimal change disease</b>	<b>Glomerular</b>	<b>Frp15</b>
16	<b>DR. ROHIT SHARMA</b>	<b>Development of a machine learning-based prediction model for Renal outcomes in iga nephropathy and comparison with the international igan risk tool</b>	<b>Glomerular</b>	<b>FRP49</b>

### Best Oral Presentation

<b>Dr. Jainendra jain</b>	<b>Pragmatic prediction of mycophenolic acid exposure in kidney transplant recipients: development of two Clinical models for estimating auc<sub>0-12</sub>.</b>	<b>Best Abstract Presentation</b>	<b>Original study</b>	<b>FRP106</b>
---------------------------	--	-----------------------------------	-----------------------	---------------

### Free Paper Presentation

<b>Dr. Canute soosan</b>	<b>Pregnancy outcome in lupus nephritis patients- a single center experience.</b>	<b>Free Paper</b>	<b>Case series</b>	<b>FRP39</b>
<b>Dr. Balaji e</b>	<b>Thrice-daily tacrolimus dosing in extensive calcineurin inhibitor metabolizers after renal transplantation: a pharmacogenetically guided strategy</b>	<b>Free Paper</b>	<b>Original study</b>	<b>FRP53</b>
<b>Dr. Nayani sri sai sumanth</b>	<b>Clinical, genotypic, and radiological correlates in autosomal dominant Polycystic kidney disease: a cross-sectional study</b>	<b>Free Paper</b>	<b>Case series</b>	<b>FRP110</b>
