Dear Dr Sahay

Greetings from the International Society of Nephrology (ISN) to all of you attending this year's 38th annual conference of the Southern Chapter of the Indian Society of Nephrology. The ISN is honoured to support the conference, and is represented by two ISN-sponsored speakers, Dr Sydney Tang from Hong Kong and Dr Sreekrishna Venuthurupally from Australia.

India is a very important focus for the ISN. With over 500 ISN members, India has the 4th highest number of members amongst the more than 160 countries and 100 affiliated societies associated with ISN. The ISN has a huge amount to offer India via its global outreach programs, and its advocacy, education and research activities. In turn, as Nephrology is advancing rapidly in India, your society has much to offer its neighbours in South Asia and beyond.

On behalf of your colleagues in the ISN, may I wish you a highly successful and enjoyable meeting.

Best regards,

David CH Harris
President, International Society of Nephrology

Message from the Chairperson Southern Chapter – Indian Society of Nephrology

On my behalf and on behalf of Southern Chapter of Indian Society of Nephrology,I am immensely happy to welcome all the delegates to the 38th annual conference of ISN-SC in Hyderabad from 9th to 11th February , 2018.

The scientific program of Southern Chapter of Indian Society is always rich in content and substance. The scientific committee and the credential committee have toiled untiringly to bring out the best to arrange a feast of Nephrology for the delegates. Faculty from the region and also the guest faculty from various countries spared no efforts to share the best of their knowledge with the delegates. Eminent faculty from across the states in the southern region of India partake their vast experience in various symposia, lectures, quiz , Prof. J.C.M.Sastry pre conference CME , oration and free paper sessions. And this conference is endorsed by the Indian Society of Nephrology and International Society of Nephrology, enhancing its prestige and relevance.

Dr. M.K.Mani graciously agreed to deliver the prestigious Dr. T. Patharos Matthai oration this year on his favourite theme Prevention of Chronic Kidney Disease.

Prof. Manisha Sahay , the organising secretary along with her team, guided by the chairmen of the conference, Prof. Girish Narayen and Prof. Anuradha under the patronage of Prof.A.Gopalakishen has spared no efforts to make this conference in this exotic and picturesque resort location a memorable scientific and cultural treat. I am certain that the delegates will enjoy their stay in Hyderabad and take home fond memories of scientific as well as sociocultural, from the newly formed state of Telangana.

Prof. Dr. K.V. Dakshinamurty,

OSMANIA NEPHROLOGY ALUMNI MEET 2018
